SmartCrete CRC announces 8 projects endorsed for funding

SmartCrete CRC is proud to announce 8 projects have been conditionally endorsed for funding following the SmartCrete CRC Board meeting held Thursday, 17 June 2021.

Conditions are required to be met before the projects can be approved for funding and the SmartCrete CRC team are working to assist project partners with meeting these requirements. The Board meeting also accepted revisions to the Project Funding Guidelines with modifications to be communicated in due course.

The 8 projects will run up to four years and involve industry partners with support by our research providers. The program represents a cash investment of almost \$5.2 million of Commonwealth funds by the CRC and partner contributions.

Project Partners include: Ash Development Association of Australia (ADAA), Australasian Slag Association, Australasian Pozzolan Association, University of Sydney, University of Technology Sydney (UTS), Macquarie University, Paintback, Hawks Excavation (VIC) Pty Ltd, Stretford Civil Constructions Pty Ltd, Transport for NSW (TfNSW), Royal Melbourne Institute of Technology (RMIT), University of Newcastle (UoN), Holcim (Australia) Pty Ltd, Curtin University, Australian Engineered Fasteners and Anchors Council (AEFAC), Swinburne University of Technology (SUT).

This is an exciting step in the development of industry led solutions for Australian concrete infrastructure "Dr Warren South, CEO, SmartCrete CRC.
