

COMMUNITY OF PRACTICE

2025 Schedule and Proposed Topics

Date	Time	CoP	Proposed Topic
18 February	@ 12:30pm	 Sustainable Concrete	Beneficial use of reclaimed paint in concrete
18 March	@ 12:30pm	 Engineered Solutions	Innovative footing for light-weight structure in expansive soil
15 April	@ 12:30pm	 Asset Management	Novel geopolymers for protection of water infrastructures
20 May	@ 12:30pm	 Sustainable Concrete	New carbon-captured supplementary cementitious materials
17 June	@ 12:30pm	 Engineered Solutions	Embedded sensing system for continuous crack monitoring in concrete pavements
15 July	@ 12:30pm	 Asset Management	Intelligent monitoring of concrete corrosion in marine environments
19 August	@ 12:30pm	 Sustainable Concrete	Carbon sequestration in concrete structures
16 September	@ 12:30pm	 Engineered Solutions	Advanced design procedures of precast concrete buildings for lateral actions
21 October	@ 12:30pm	 Asset Management	Sustainable and fit-for-purpose concrete materials for construction of assets
18 November	@ 12:30pm	 Sustainable Concrete	Use of returned concrete aggregate as replacement of virgin aggregate
16 December	@ 12:30pm	 Engineered Solutions	TBC

Note: Topics are subject to change based on speaker availability and other developments.
